**CITY OF BRAWLEY
ASSOCIATE CIVIL ENGINEER**

DEFINITION:

Under direction performs, coordinates and/or directs the design and construction of municipal public works projects; supervises engineering technicians and professional engineering firms under contract with the City of Brawley. This position is also responsible for the maintenance of the City's Capital Improvement Program (CIP). This position reports to the Public Works Director.

EXAMPLES OF DUTIES AND RESPONSIBILITIES:

- Manages, supervises, and directs the engineering staff.
- Plans, organizes, directs, coordinates, and performs professional engineering work in the design, construction, and maintenance of streets, water and sewage facilities, drainage, structures, pedestrian improvements, and other type of improvements within the City right of way.
- Prepares and maintains a ten-year Capital Improvement Program.
- Applies for federal and state grants for streets, colonia areas, and airport projects.
- Prepares and implements contracts for City consultants.
- Prepares written correspondence and administrative paperwork for projects, including letters and memoranda.
- Prepares schedules, reports and cost estimates for projects and work activities.
- Inspects construction to insure that projects are proceeding appropriately and to resolve issues.
- Develops and utilizes computer analysis/data processing capabilities for engineering design and planning activities.
- Administers state and federal grant programs.
- Manages and directs consultant's performance.
- Reviews and recommends payment request from consultant and contractors (invoices, pay estimates, contract change orders).
- Oversees construction management and inspection services provided by consultants.
- Reviews and approves tentative and final maps for new subdivisions.
- Reviews environmental documents, subdivision maps, consultant designs, and permits for conformance with the City's standards, policies and procedures.
- Assists in the training and development of departmental personnel including performance evaluations.
- Helps in the selection process of personnel.

- Assists in the coordination of work of the department with the work of other departments and/or other public agencies.
- Prepares budget estimate and work programs.
